

**Project: Ecobalance, Democracy, Social Justice, Health and Wellbeing**  
**Champion: Val Walsh**

**Issues**

- There is no health and wellbeing without ecobalance
- We must agree and promote an understanding of the relationship between ecobalance, democracy, social justice, health and wellbeing, as this conjunction applies to this city.
- We must build an effective cultural and political alliance that enacts these goals
- These aspirations are a necessity

**The three key points (next steps)**

1. Engage with Council on green issues
2. Involve more people
  - From other countries
  - Young people
3. Link environmentalism and social justice

**Feedback from others (Post-it notes)**

- Health
- Human Rights Act

**Notes**

1. Which councillor is responsible for environmental issues?
2. Meet councillor/mayor
3. Involve people from other countries who are living in Liverpool to learn from their experiences in environmental issues/projects/campaigns
4. Environmentalism and social justice
5. Need to involve young people in green projects
6. People from other countries to help them participate in the wider community and learn from them
7. Language/communication
